In response to Request for Additional Information dated 11/20/2014, amended reports have been filed to correct noted deficiencies:

--a refund had been issued to American Bankers Association PAC on 9/30/14 however the record was entered in the reporting software after the report had been filed. That quarterly report, and all subsequent reports, have been amended to reflect the refund.

--Several contributions received in the first week of August 2014 had incorrect dates which showed them designated to the Primary but received after the Primary. The dates have since been corrected and the amended report filed reflects the actual dates received/postmarked.
